A Huron pediatrician named as a “party of interest” in an ongoing investigation died as the result of a single self-inflicted gunshot wound, Attorney General Marty Jackley said Friday.

Dr. Robert Sherwood was pronounced dead at Huron Regional Medical Center Thursday evening. He shot himself late in the afternoon at Seventh Street and Dakota Avenue South.

Jackley is not providing any other details in the case, including the nature of the investigation involving Sherwood. He would not say whether the doctor’s occupation was a factor.

The attorney general said authorities wanted time to talk to Sherwood’s relatives about the investigation before releasing any more information to the public.

Law enforcement officers were at Sherwood’s residence on Friday.

The investigation is being conducted by the Huron Police Department and the state Division of Criminal Investigation. The Minnehaha County Sheriff’s office is also providing assistance, Jackley said.
